01 — BAND SNAPSHOT

OBELISK’S TORMENTOR is a Semarang-based extreme metal act established in 2019, built around atmospheric deathcore, extreme metal intensity, and blackened darkness. The band combines crushing modern heaviness with a deliberately ancient, mysterious visual identity.

After releasing its first full-length material, the band is now entering its next chapter: the second album is currently in progress, while OBELISK’S TORMENTOR is actively rebuilding its live presence across Central Java and beyond.

Origin	Semarang, Indonesia
Established	2019
Style	Deathcore / Extreme Metal / Blackened Death Metal
Current Focus	live reactivation, on process New Single and Music video
Live Formation	4 members + 2 crew
Typical Set	20–30 minutes
Live Experience	Approx. 15 performances
Audience Draw	Approx. 30–50 people specifically attending locally

02 — THE OBELISK’S TORMENTOR IDENTITY

OBELISK’S TORMENTOR is not intended to function as a generic deathcore act. Its world is built around an ancient executioner/tormentor entity and the destruction of idols as a symbolic rejection of false worship, ego, and empty monuments.

The identity is intentionally cinematic and mysterious: monumental imagery, ruined artifacts, dark atmospheres, and a faceless Tormentor. The contrast is deliberate—an ancient, severe stage world carried by people who remain approachable and humorous away from the performance.

- THE OBELISK — a symbol of the idol, false monument, and empty worship.
- THE TORMENTOR — the faceless executioner of idols; a fictional symbolic entity.
- THE FORGE — suffering, pressure, and transformation.

- THE RETURN — a symbolic call back to the One.
- THE STAGE — a ritualistic visual and sonic environment rather than a conventional rock show.

03 — LIVE PERFORMANCE

The live set is designed to be compact, intense, and visually memorable. With a typical 20–30 minute set, the band prioritizes impact over unnecessary downtime: heavy transitions, atmospheric tension, and a concentrated extreme-metal performance.

- 4 performing members supported by 2 crew.
- Typical performance window: 20–30 minutes.
- Live performance intensity: internally rated around 7–8/10.
- Core personal equipment includes guitars, effects, pedalboards, wireless systems, and IEM.
- PA / main amplification support is currently coordinated with the promoter/venue.
- Best suited for underground metal shows, curated showcases, festivals, auditions, and multi-band events.

04 — SELECTED EXPERIENCE

OBELISK’S TORMENTOR has performed in multiple cities and event environments, including:

- Jateng Fair
- Hammersonic Audition (Live Curation)
- Semarang
- Tegal
- Jepara
- Blora
- Magelang

The band is now looking to expand this footprint through carefully selected regional and national opportunities.

05 — MUSIC & MEDIA

- First album released.
- Second full-length album currently in production.
- 2 official music videos.
- Music available through Spotify, Bandcamp, YouTube, and Apple Music.
- Official band merchandise currently includes T-shirts.
- Additional live/event footage is available through event documentation and vlogs.

06 — BOOKING & PERFORMANCE RATES

The following rates are intended as a professional starting framework for 2026. Final offers remain flexible according to event scale, lineup, production, location, schedule, and strategic value of the opportunity.

BOOKING TYPE	STARTING RANGE	NOTES
Semarang / Local	Rp1.500.000–2.000.000	Suitable for curated local events.
Central Java / Regional	Rp2.000.000–2.500.000	Travel costs discussed separately.
National / Major Lineup	Rp2.500.000–3.500.000+	Negotiable based on production & lineup.
Festival / Commercial	By quotation	Custom offer based on event requirements.
Out of Town	Performance fee + costs	Transportation/accommodation covered separately when required.

IMPORTANT: These are booking guidelines, not rigid public prices. OBELISK'S TORMENTOR is open to strategic opportunities where the lineup, venue, audience, media exposure, or long-term value makes an otherwise lower offer meaningful.

07 — WHAT PROMOTERS CAN EXPECT

- A focused 20–30 minute extreme-metal set.
- Professional preparation and punctuality.
- 4-piece live performance supported by 2 crew.
- Own core guitar/effects/IEM/wireless setup.
- Clear technical communication before show day.
- Flexible coordination with promoter and production team.
- A distinctive visual identity designed to stand out on a multi-band bill.
- Promotion support through the band's own social and digital channels, subject to agreement.

08 — BASIC TECHNICAL REQUIREMENTS

Current basic setup and requirements:

- PA / FOH system: provided by promoter or venue.
- Main amplification / stage backline: coordinated with promoter in advance.
- Guitarists bring their own guitars, effects, pedalboards, wireless systems, and IEM.
- Detailed stage plot, input list, and rider can be prepared for confirmed bookings.
- Soundcheck and changeover requirements should be confirmed before event day.

09 — BOOKING TERMS

- Booking is considered confirmed only after both parties agree on fee, schedule, venue, and technical requirements.
- Travel, accommodation, meals, and other production expenses are discussed separately for out-of-town bookings.
- Performance duration is normally 20–30 minutes unless otherwise agreed.
- Promotional assets can be supplied for posters, social media, and event announcements.
- Any special production request should be discussed before the final agreement.
- For strategic shows, the band may consider a special rate depending on lineup, event reputation, and exposure.

10 — WHERE WE ARE GOING

OBELISK'S TORMENTOR is currently focused on rebuilding consistent activity and expanding from Central Java toward the wider Indonesian scene, with a long-term ambition to reach international audiences.

- REGIONAL — establish a stronger Central Java / Java live circuit.
- NATIONAL — appear on stronger bills and build recognition beyond the local scene.
- INTERNATIONAL — develop the music, visual identity, and network toward overseas opportunities.

The goal is not simply to play more shows. The goal is to build demand around a recognizable world.
